

CAMP RECAP

JUNE 30-JULY 11TH

LETTER FROM THE DIRECTORS

Hello Camp Families,

We've had an amazing first two weeks here at Camp Grosvenor!

Campers have been busy making new friends, designing their team flags, and cheering each other on at the rock wall. Over the past two weeks, we've been diving into nature with a hands-on composting activity where kids will learn how to turn food scraps into soil. It's been incredible to see your campers working together, building confidence, and having lots of fun. We can't wait for more adventures ahead!

Camp days are full of fun and adventure. **Please help your camper stay refreshed by sending them with a reusable water bottle each day.** Staying hydrated keeps the good times going strong!

Best,
Blake & Bennett

GROUPS 1-2

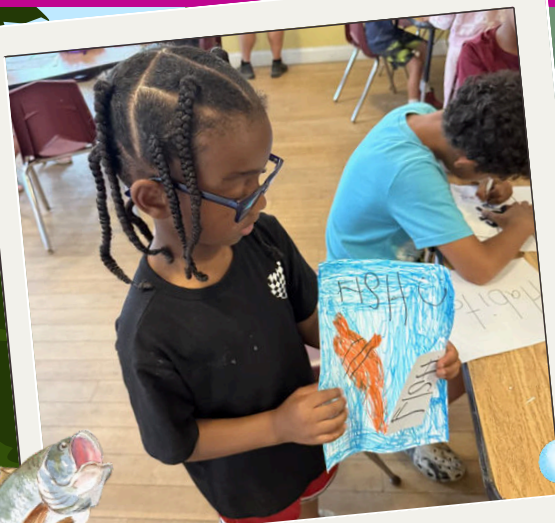

Campers learned all about **birds' nests**! We began by discussing where birds live and how they construct their homes. Campers then looked at pictures of different types of nests, and **teamed** up with a partner to create their own using natural materials. This activity has been a fun and creative way to **connect** with nature, just like our feathered friends!

Making a bird nest

GROSVENOR ADVENTURE ZONE

In the Grosvenor Adventure Zone, a.k.a the **"GAZ,"** campers researched different habitats and where we might find some of our favorite critters. **Bugs** and **fish** were especially popular choices! We also explored what kinds of little friends we might encounter right here at camp in our natural **habitat**.

Fish are friends!

CAMP RECAP

JUNE 30- JULY 11TH

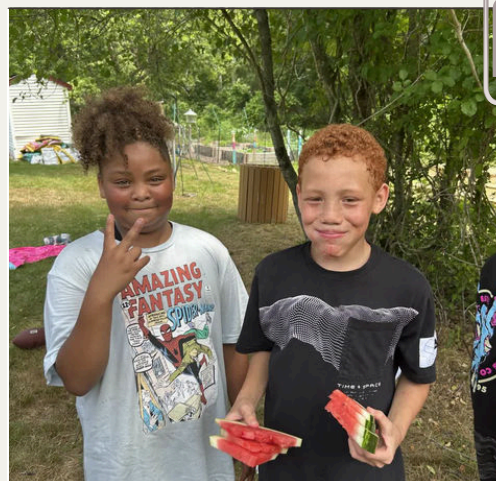

Reaching new heights!

GROUP 6

Campers supported each other on the rock wall using the **Austrian Belay System**. In this setup, three campers were harnessed into the belay system to work together and help their teammate **safely** climb and scale the wall. It was an awesome opportunity to build **trust**, **communication**, and **teamwork**!

GROUP 7

Campers had a blast during our Camp-wide **treasure hunt**! They followed clues hidden all around the camp, working together to **solve** each one. Their hard work paid off when they discovered the treasure chest—a cooler full of refreshing **watermelon**!

Healthy treats

GROUP 8

Campers in the Bee Group explored the environment around them on a hike through the beautiful **Kings Preserve** trail system. They enjoyed discovering the **sights**, **sounds**, and **surprises** the forest had to offer along the way!

Adventure awaits!
